

SHOULD I GET A 401K PLAN BENCHMARK ANALYSIS REPORT

YES, Please Benchmark My 401k Plan!

Being a fiduciary is an important responsibility. But just because the regulations are complicated and potential fines are involved doesn't mean you should have to worry.

**The good news is, you don't have to know everything --
you just have to know the right things.**

The Retirement Plan Diagnostic® (RPD) is a powerful analysis tool that benchmarks your plan based on Investment Return, Menu Diversification, Participation, Utilization and overall Efficiency.

Contact Thoughtful Advisors to schedule your no-cost Inventory and Diagnostic meeting today! We waive our \$495 RPD fee for referrals from our local chambers of commerce and Tampa Bay area professionals.
